### Assessor Petersen Launches First Fully Digital Forms for County Property Owners

Getting things done at the Assessor's Office has never been easier with the addition of [new electronic signature forms](#).

In the first round of fully digitizing forms, citizens can file to update their mailing address, apply for the Senior Valuation Protection program and combine Common Areas.

Instead of having to print out or edit a PDF form, the Adobe Sign Version of our forms allow individuals to fill out the entire form online. When the form is completed, it will be emailed to the Assessor's Office and the citizen so that each has a record of the submission without having to deal with the costs of paper forms.

"It's 2018 and we have the technology to provide secure and accessible electronic forms that make getting what you need to do, done at the Assessor's Office," Maricopa County Assessor Paul D. Petersen said.

The Assessor's Office will continue to expand the amount of services launched online as demand rises. Currently, the Assessor's Office also has teamed up with the Treasurer's Office to give taxpayers their Notices of Value and Tax Bills electronically through our [e-Notice program](#).

To take advantage of these new digital forms, click on the "[Adobe Sign Version](#) 

**Electronic Signature Forms Now Available**

**NEW:** The Assessor's Office now allows you to sign certain forms online. Click the [Adobe Sign Version](#)  for this new option.
